Notes:

- 1 Separate Cost statement shall be prepared in relevant proforma for:
 - (a) each major utility having significant impact on cost, whenever such utility is functionally independent and not forming part of composite unit for exploration, production, refining, transportation, etc activity wise.
 - (b) Exploratory Drilling or Development Drilling cost.
 - (c) Onshore or Off-shore production cost.
 - (d) Crude Oil or Natural Gas cost.
 - (e) Each major petroleum product or activity or sub activity thereof.
 - (f) Transportation of petroleum products for each Natural Gas Pipeline or dedicated pipeline or city gas distribution net work or cost of service or sub-service.
- The column for "Brought forward" under the head "Amounts (Rs)" of Cost Information under Proforma 'C' stands for amount charged towards wells-in-progress during the previous year
- Method of accounting followed e.g. successful effort method or full cost method to incorporate unit specific features, if any, indicating reasons thereof shall be indicated under relevant proforma.
- 4 If a product emerging from one-process forms the raw material for subsequent process or other products covered under the rule, separate cost statement of production under relevant proforma (suitably modified, if necessary) shall be maintained for each process or products such as manufacture of base oils.
- Wherever any company is engaged in transporting of crude oil or natural gas or other petroleum products, separate details as per item 'C' of Proforma 'E' shall be prepared in respect of such transportation activity with suitable modifications, wherever required.

- If separate charges are levied from customers for transporting of Crude Oil or Natural Gas from CTF to delivery point, only the net cost shall be shown against item 5 under cost information of Proforma 'F'.
- In case a joint product is sold without further processing details in regard to quantity sold, cost of sales and average sales realization etc shall be indicated in appropriate cost statement and the basis on which cost is apportioned to joint products shall be indicated therein.
 - If these are further processed, separate cost statement under relevant proforma or any other form as thereof shall be prepared.
- 8 In case of value added products produced by using any of the intermediary product or finished product out of the refining process, separate cost statement of such value added products shall be prepared in suitable form.
- 9 Sales Realization for quantity sold at price notified or fixed by Government if any and at the price fixed by company shall be indicated separately.
- Details of fixed assets employed shall be indicated activity wise in Proforma 'J' and reconciled with financial accounts and the details of apportionment of depreciation to respective activity be specified separately in case of common fixed assets; all items of income, expenditure and margin shall be reconciled with the financial accounts for the relevant period/year as per Proforma 'K' and 'I'.
- 11 The different types of Utilities should be shown distinctly under Proforma 'K' and separate cost statement for each of these utilities including apportionment thereof shall be prepared as per Proforma 'A'.
- 12 The Overheads and items of expenses shown under Proforma 'K' are indicative and the classification of the Overheads shall be shown separately depending on the operation of the Company and its business process.
- 13 The basis of apportionment of different Overheads to the utilities and production cost centres shall be clearly indicated.
- 14 The items of cost shown in the Proforma are indicative and the same shall be reflected keeping in mind materiality of each item of cost in the product and activity group.
- 15 The cost accounting policy and the basis of allocation and apportionment of different items of cost to the user departments or cost centres as well as its recovery in the final product(s) to be recorded in a separate statement, which would be an integral part of these records under the following heads:
 - a) Utilities separately for each utility.
 - b) Overheads classified under Factory or Plant or Refinery Overheads, Administration Overheads, Marketing and Selling and Distribution Overheads.
 - c) Depreciation,
 - d) Valuation of Stocks
 - e) Treatment and valuation of Bye-Products and Joint Products
